- Corrugated Cardboard (moving/pizza box material)
- Paper Coffee Cups
- Styrofoam
- Contaminated items
How to Recycle

#1 Take recyclable materials to your designated recycling area.

#2 Rinse out any containers that have come in contact with food/liquid.

#3 Sort the materials into their appropriate bins, as shown by the signs.

∞ Repeat!!
Quick Sustainability Tips

• Most rooms have more than one trash can. Use one for trash, one for recyclables.
• Let your Recycling Chair know immediately if you see concerns with the recycling bins (overflow, sanitation, missing signs, etc.)
• Don’t leave the faucet on while shaving or brushing your teeth.
• Shut your lights off if you are going to leave your room for more than 5 minutes.
• Unplug electronics when not in use. Even electronics turned off but left plugged in use energy!
Fall Move-In
Corrugated Cardboard Recycling

• Due to high demand, corrugated cardboard recycling is provided during fall move-in.

• Large, green roll-away dumpsters will be placed in each residence hall neighborhood and apartment community.

• These areas are designated for Corrugated Cardboard ONLY. The cardboard MUST BE FLATTENED!

• This program is only available during move-in and not the entirety of the academic year.
The GreenHouse Group

The GreenHouse Group (GHG) is the student group responsible for promoting sustainability in on-campus living.

- This includes the residence halls, SUV, and Frederiksen Court.
- Our efforts are most visible in the convenient recycling program now available for the second year.
- Other events have included Earth Hour 2010, National Campus Sustainability Day, and the first-ever recycling service during VEISHEA.
Get Involved!!

- Each house has a *Recycling Chair* (that you can run for!) who helps organize the recycling program and other sustainability programs for the house.
- Each hall has a *Sustainability Coordinator* (that you can run for!) who manages the entire hall’s sustainability program.
- Join the GreenHouse Groups’s weekly meetings to get involved in fun projects, voice your ideas, and work with students to promote sustainability.
- Questions?? Interested?? Email the GHG at greenhousegroup@iastate.edu
